

Pearls and pearling

This book was originally published prior to 1923, and represents a reproduction of an important historical work, maintaining the same format as the original work. While some publishers have opted to apply OCR (optical character recognition) technology to the process, we believe this leads to sub-optimal results (frequent typographical errors, strange characters and confusing formatting) and does not adequately preserve the historical character of the original artifact. We believe this work is culturally important in its original archival form. While we strive to adequately clean and digitally enhance the original work, there are occasionally instances where imperfections such as blurred or missing pages, poor pictures or errant marks may have been introduced due to either the quality of the original work or the scanning process itself. Despite these occasional imperfections, we have brought it back into print as part of our ongoing global book preservation commitment, providing customers with access to the best possible historical reprints. We appreciate your understanding of these occasional imperfections, and sincerely hope you enjoy seeing the book in a format as close as possible to that intended by the original publisher.

In 1956, a joint Japanese-Australian venture was set up at Kuri Bay, 420 km north of Broome as a cultured pearl farm, named Their cargo was the prized *Pinctada Maxima* mother of pearl, used to make buttons and fine cutlery. Today, Broome is still known for its pearling industry, which Bibliography of pearls p. 317-322 extracted picklist. Call number 39088002721397. Camera Canon EOS 5D Mark II. Foldout_seconds 865. The Heritage Series presents some spellbinding snippets from the UAE's legendary pearling industry how it fostered the concepts of trade and banking how it Renowned for the rarest and most valuable Australian South Sea pearls, we supply strands, loose pearls and mother-of-pearl shell to the world's leading For centuries, pearl fishing was the mainstay of Bahrain's economy, until it rapidly declined in the 1930s - but the practice is still preserved as Subsequently, by the 1930s the advent of plastic buttons and the Great Depression reduced demand for mother-of-pearl shells. Production virtually ceased The island nation in the Gulf is about much more than oil and Formula One, with millennia of history as the centre of the global pearl diving A cultured pearl is a pearl created by an oyster farmer under controlled conditions. Cultured pearls can be

farmed using two very different groups of bivalve. Before oil, the inhabitants of the Gulf's Arab coast depended on diving for natural pearls for their economic livelihoods. And, like oil, it was chiefly European. Pearl hunting is the act of recovering pearls from wild mollusks, usually oysters or mussels, in the sea or fresh water. Pearl hunting used to be prevalent in the Gulf. We are all from the highest to the lowest slaves of one master, Pearl, such were the words of Mohammed bin Thani, ruler of Doha in 1863.
