

# Spring and Winter Flowering Bulbs of the Cape

This large format coffee-table book describes and illustrates 420 species of flowering bulbs found at the western Cape Province in South Africa. It includes 62 full color plates reproduced from water colors, painted by Barbara Jeppe, a well-known floral artist. The descriptive text which faces each plate gives comprehensive botanical information, including Latin and common names, size and color of the inflorescence, number and arrangement of leaves, and period of flowering and distribution patterns. A comprehensive glossary of terms is included, making this an ideal book for both amateur and professional botanists, and all flower lovers.

Author: DUNCAN G & JEPPE B, Description: A beautifully illustrated guide to over 400 species. 143 pp with some bw and many colour illustrations, maps on Two Botanical titles: The Moraeas of Southern Africa (Peter Goldblatt) and Spring and Winter Flowering Bulbs of the Cape.
