Hundreds of years ago, Mankind fled the surface of the planet, following a cataclysmic war with monsters of Its own making. Now, the last remnants of Humanity survive in Spires ... massive bio habitats deep beneath the surface. Tyler Mason is the son of a Founding family, a member of the militant elite. His life is filled with service to the ruling Conclave, policing the Spire and fighting rebel elements bent on overthrowing hundreds of years of diligent service to the people of Spire IV. Sent on a mission to the depths of the Spire, Tyler could not guess how his life would change. How everything he believes would be thrown into doubt, and the lives of the Spire suddenly in his hands to save or damn. The life of one child will be balanced against implacable enemies, the might of the Spire and the rebel forces ... and Tyler will be forced to decide ... if monsters arent real, then what really hides in the shadows?
