

The Serene Invasion

In 2025, the Serene arrive from Delta Pavonis V, and change mankind's destiny forever. The gentle aliens bring peace to an ailing world—a world riven by war, terrorism and poverty, by rising conflicts over natural resources—and offer an end to need and violence. But not everyone supports the seemingly benign invasion. There are those who benefit from conflict, who cherish chaos, and they will stop at nothing to bring back the old days. When Sally Walsh is kidnapped by terrorists and threatened with death, it seems that only a miracle can save her life. Geoff Allen, photo-journalist, is contacted by the Serene and offered the opportunity to work with the aliens in their mission. For Sally, Geoff, and billions of other citizens of Earth, nothing will ever be the same again...

The Serene Invasion by Eric Brown - book cover, description, publication history. *The Serene Invasion's* premise is simple yet suggestive, plain yet potentially progressive. In 2025, aliens invade. But strangely, they don't wage war. Lightweight and frothy, there's a great book in there, based around a fascinating idea. In the absence of violence, when even an inadvertent act of violence can have dire consequences, the Serene offer an end to poverty and violence - but not. *The Serene Invasion* Eric Brown. **ERIC BROWN THE SERENE INVASION** First published 2013 by Solaris an imprint of Rebellion Publishing. *The Serene Invasion* (paperback).
