Water contributes a sense of peace and tranquility to a garden, making it more inviting, more romantic, more livable. Whether the water garden is little more than a pond or a large feature, it can be a focal point in your garden. - 10 min - Uploaded by PondsIncStep by step instructions for your very own do-it-yourself pond! -inc. com.C. Submerged (Oxygenating) Plants: Take around five or six stems of the plant, and bunch them together. Put the bottom end in a small plastic pot, and fill it with gravel or river pebbles. Sit the pot in your water garden or pond, so that there is 15cm-40cm of water above the leaves of the plant.Bring an exotic touch to your patio, deck, or yard by making a small water garden in a tub. Use a plastic or glazed ceramic container or a plastic-lined, wooden - 6 min - Uploaded by Lowes Home ImprovementSmartpond demonstrates how to build a pond or water feature in your home garden.
